

Many countries have fences
separating them from their neighbors.

Here are some examples:

United States
South Korea
North Korea
China
Cyprus
Turkey
Northern Ireland
Netherlands
India
Spain
Morocco
Saudi Arabia
Yemen
Thailand
Botswana
Uzbekistan
Belarus
Kuwait
Finland
Israel...

Why would anyone focus on removing only
Israel's fence? Why single out Israel?

Particularity when terrorism in Israel has declined by 90%
since the fence was constructed.
