

Israel Transforms The World One Life At A Time.

MASHAV, Israel's Center for International Cooperation, conducts nearly 300 international and single-country courses annually. It has trained almost 200,000 course participants and given international assistance and emergency aid to 140 countries around the world.

In 1958, only 10 years after Israel was founded, Israel created Mashav to offer then-emerging nations its knowledge and development experience. Mashav experts train local professionals in irrigation, desert agriculture, desertification prevention, water management, early childhood education, community development, emergency and disaster medicine, refugee absorption and employment programs.

Among the international humanitarian aid projects Israel has conducted in just the past few years...

Upgraded the Trauma Center in Al-Amal Hospital in the Gaza Strip (2000)

Started construction of a Cancer Center in Mauritania (2000)

Built a large state-of-the-art Intensive Care Unit in Kharkov, Ukraine (2000)

Rebuilt and upgraded the ICU and Rehabilitation Center in Duzce, Turkey, following the tragic earthquake there (2000)

Offered patients in developing and impoverished nations general and specialized medical care, including blindness and ocular disease prevention and pain treatment.

1999: An Israeli doctor gives an eye exam to a woman in Mauritania. Israel has been sending eye doctors to Africa since 1959, treating preventable blindness and disease.

Israel's assistance has helped countless individuals from over 140 countries around the world:
