

Israel's Story

Over 3,000 Years ago...

**an indigenous people
developed a thriving civilization
and culture in their ancestral homeland.**

**Over time they were conquered by a series of
aggressive foreign empires, and while some of the
people stayed in their cities and communities, most
of them scattered across Europe and the Middle East.**

**Although they flourished at times, for 1,900 years
they lived as an oppressed minority, suffering
expulsions, massacres, and ultimately genocide.**

**They barely survived but never lost hope.
They overcame.**

**They started a liberation movement, went back
home to join those who were already there, and
built one of the most vibrant and diverse nations
the world has ever seen.**

That nation is Israel.

**Israel's story is proof
that if you will it,
it is no dream.**
